Fine Dining

Resort Style Living

We started with a simple idea: let's create senior living communities that we'd want our own family members to call home. Over the past decade with that concept in mind, we've been blending science, art and technology to redefine what senior living is supposed to be. To us, that means all inclusive resort style living, luxurious private accommodations, intelligent facility design that fosters community interaction, and a seemingly never ending list of activities and amenities for our residents to take advantage of.

Amenities

Make new friends

Exciting Lifestyle

At the core of every facility is the mission to develop a community that we'd be excited for our own family members to be a part of. Having the opportunity to develop our communities from the ground up, we're able to integrate this idea across every square inch of our facilities, and implement design features that convey our culture, and create an environment that our residents are excited to call home.

A place where everyone knows your name.

Every day at Hampton Manor is filled with opportunities to make new friends, attend events, and try new things. At Hampton Manor it is not just about quality of care it is about quality of life as well. It's never too late to meet poeple, learn new things, and enjoy life to the fullest. We make sure to keep our weekly schedules full of activities, events, and electives so our residents have plenty of different options to choose from every day. Whether you're looking for an adventure or simply a quiet place to read a book we have to accomodate.
